only.

## Local and General

Rev. and Mrs. R. K. Swenerton and family motored to Sylvan Lake on Thursday last, where they will spend a three weeks vacation.

Mr. and Mrs. Halliday, of Calgary spent last week-end with their son Mr. A. A. Halliday and family.

Mr. C. S. Casey and Miss M. Ontkes were visitors to Calgary on Monday going down by auto.

Miss M. Walsh returned to her home at Stampington on Tuesday after spending a week with friends at Craigny, Alta.

Mr. and Mrs. J. R. Gilchrist and family returned home on Monday after spending a vacation amongst friends and relatives along the line north of Crossfield. Joe took a trip to Calgary on Tuesday.

Miss A. Whitfield spent last week end with relatives and friends in Calgary, returning on Monday night.

Misses Marie and Alice Ontkes returned home on Thursday last after spending a vacation at Olive, as guests of Mr. and Mrs. C. Wicks. They also spent a day with friends in Lacombe.

Mrs. A. R. Thomas has secured a residence in Calgary and commenced moving operations on Tuesday.

Mr. E. J. Bartholmew returned to town on Friday last after being in the hospital in Calgary for a couple of weeks undergoing an operation. Mr. Bartholmew is much improved since his treatment at the S. C. R. Hospital and claims the attention at this Institution is all that could be desired.

## CHURCH OF THE ASCENSION.

Sunday, August 22nd.

10 a. m. Sunday School.

UNION CHURCH, CROSSFIELD

Sunday, August 8th.

Rev. R. K. Swenerton, B.A., B.D.,

Pastor.

Mr. S. Willis, Musical Director.

Mrs. M. Thomas, Organist.

Mr. D. A. Jeffery, Sunday School

Superintendent.

Sunday School & Bible Class 2 p. m.

Preaching Service at 7.30 p. m.

Sunday, August 22nd.

Rev. Mr. Salter, of Canadian Bible Society. At Beaver Dam 11

a. m. Inverlea 3 and 4 p. m. Cross-

field 7.30.

Miss L. Faulds returned to her home at Delia, on Wednesday, after spending a two weeks vacation at the home of Mr. and Mrs. C. Deeks.

Mr. and Mrs. McKenzie, of Brandon, Man. accompanied by their daughter Miss Olive, are visiting at the home of their daughter Mrs. D. A. Jeffery.

We hear that Mr. J. S. Davis, of Calgary, an old timer of this district, has recently undergone an operation for Appendicitis and Gall-stones. Jack was fortunate in having a good surgeon perform the operation Dr. Lynn, of Lethbridge, who is Mr. Davis's brother-in-law, also brother to Mr. O. Lynn, of Crossfield. We are pleased to report that Mr. Davis is improving daily.

## Local and General

C. F. Camp, of Cremona district was fined \$10.00 and costs on Saturday, August 14th for operating a motor vehicle without licence. Constable Valk prosecuted and the case was held before W. Greenhill J. P. of Elkton.

A car of young cattle were shipped in by Amery and Son on Thursday last, comprised of 34 head.

Mr. G. G. Huser had three cars of horses arrive in town on Thursday last, forty six head being driven on to his farm east of town.

Mr. F. Collett shipped two young bulls from his herd of Pure-bred Herefords, one to Mr. A. M. McKinley, of Forestburg, and one to Mr. E. P. Rennie, of Alliance. These bulls each brought \$750.00 and are both under a year old.

150 head of cattle were unloaded at the local stockyards on Sunday morning consigned to Mr. Coppick, who recently purchased the Barney Madden ranch, west of town.

Mr. John Nier visited with friends at Rocky Mountain House, on Monday last.

Messrs Hewitt and Hewitt received the handsome sum of \$1,500.00 for a 14 months old Percheron Stud colt of their own raising. The colt was sold and shipped to Mr. Lewis, of Portland, Oregon.

Several farmers in the district have commenced cutting grain during the past week. It looks as though harvesting will be general within the next week or so, binders being lined up and everybody rarin' to go.

Mr. Wm. Murdoch returned to town on Thursday last after an absence of about three weeks in the districts north and south of Crossfield, adjusting Hall Insurance. Billie claims the crops arounds here are the best he has seen.

Mr. and Mrs. J. S. Jose, of Three Hills, passed through Crossfield on Saturday evening last, en-route for Calgary, where their son Donald lies in hospital, suffering from the results of an accident. It appears that the little fellow was riding on a load of lumber and fell between the wheel and the load, evidently lodging in that position judging from the manner in which the boy was crushed and broken. It has been a serious job for the doctors as also an anxious time for the parents but we are pleased to report that if his progress is as satisfactory from this on, as it has been since the accident occurred he will be fit to go to his home in about two weeks.

## In Memoriam

In Loving Remembrance of Mr. Walter Landymore, who left us August 20th, 1919. "We miss thee from our home dear father, We miss thee from thy place, A shadow o'er our life is cast, We miss the sunshine of thy face. We miss thy kind and willing hand, Thy fond and earnest care; Our home is dark without thee, We miss thee everywhere." Inserted by his Children.

## Love of The Wild

—BY—  
ARCHIE P. McKISHNIE

Printed by Special Arrangement  
with Theat. Allen,  
Toronto, Ont.

(Continued.)

He walked over to the spring repeating the words over and over—"no more—Boy and girl no more!"

From Totherside came the clang of the school bell.

"I wonder what she meant. I wonder why she wished that school—wonder why she wishes Simpson—"

Suddenly he flung the squirrels from him, and bending forward gazed with hard eyes toward the white schoolhouse clinging to the hill.

"If he thinks harm to her, then God curse him," he breathed, "and help me to kill him."

A wee hedge-sparrow, drunk with the hazy Indian summer sunshine, perched itself on a branch above his head and poured out the simple little song that he had always loved above all other songs of woodbirds, because it was always the first song in new spring; the last in dreary fall. The little singer was about to leave the wood wherein he had nested and enjoyed a season's happiness. He was about to fly far south, and was trilling a promise to Boy to come back again another springtime. And Boy listened to the simple song and wondered at the gladness of it. Nothing of the deep unrest of his own soul was there—only the gladness of a heart brimful of God's deep joy. Boy sat down on a log and watched the bird.

"Little chap," he murmured, "you have got a long way to fly. I guess I know about as well as anybody could know you, unless it's Daff Daff, who's wild like yourself, and I can't understand why you should be glad when you're leavin' all this—"

He looked about him. "—All this nestin'-place. The great woods has been mighty good to you, little fellow—mighty good. There's a nest you built here, and you've got to leave it behind."

A shadow floated across the hazy sunlight and a cold wind swept from the bay. With a last sweet note of good by the bird sprang to wing, and beating skyward high above the trees faded, a little drifting speck in the sombre clouds rolling up in the south. Boy watched it until it's tiny gray body was lost against the sky's gray fringe. Then he sighed, picked up the squirrels, and proceeded to strip them, delfly, of their glossy coats. This done, he washed them carefully and carried them to the house. Gloss was standing by the table in the kitchen and spoke to him as he entered.

He answered her almost rudely and strode outside. The hazy light of morning had vanished. The skies had darkened, and a low wind was shaking the dead leaves from the trees. Boy plunged down the path and into the wood. A shaggy dog, snoozing beside the ash-leach, watched him furtively from half-closed eyes. When Boy's figure disappeared behind the slope, the dog rose, shook himself, and with stiffened muscles trailed his master stealthily.

Deep into the woods, Boy paused before a small grove of baby maples. Beneath their spreading branches stood a playhouse built of rough bark and twigs. He and Gloss had built this house; she, girl-like, to play at mimic life therein; he, boylike, that she might own her little joy. There stood the table, a basswood block, set for a feast, with broken bits of crockery and glass for dishes. It seemed but yesterday that he and Gloss had sat before that table and eaten an imaginary supper of earth's luxuries from those broken dishes. It all seemed so poor, so lonely, and deserted now.

In the twig high-chair slept Peggy, the rag doll, her arms dangling, her

## IF CRIPPLED WITH A LAME BACK READ THIS

Tells All About a Safe Medicine That Relieves After One Dose

That throbbing pain at the base of the spine is caused by impure kidney action. Fix up the kidneys and the backache goes in a hurry. The most wonderful kidney medicine is Dr. Hamilton's Pills. They contain the juices of certain herbs which soothe and heat all kidney illness. It's a pleasure to use Dr. Hamilton's Pills. They relieve after the first dose, give you a new feeling entirely, remove that dull, throbbing backache, correct urinary disorders, stop headaches, and vague pains through the muscles and joints.

Forty years of success stand behind Dr. Hamilton's Pills, which are prepared in the laboratories of the famous Catorhazone Company, and can be depended upon as a safe, swift, and certain cure for Backache, Kidney, Liver, Stomach, or Bladder Troubles. Sold everywhere in 25c boxes.

whole attitude one of peaceful repose.

Boy crept in shamefacedly and swept the cobwebs from her poor little face. Then he sat down on the stump-chair, and, laying his arms on the table, rested his head upon them. In the open air, he accented low above the trees, and it began to snow. Boy arose and walked about the little house, his eyes searching it for the small trinkets the girl had treasured there. A bunch of dead berries, staked in the cracked cup of the bark shell. They were used to a gorgeous bit of red flannel, which, he remembered, Gloss had been careful to explain was watered silk. Boy smiled, and pressed the knot between his fingers.

On the floor lay a home-woven straw hat. Its decorations, too, were of woodland flowers faded to ashes and scentless. Boy caught it up and held it at arm's length; then he threw it from him and sprang out into the darkening wood again.

He hurried on, passing the tree-spring where he and the girl had played so many summers. He passed through the hickory grove where they had gathered the nuts for the winter's cracking; through this and to the heavier timber and deeper shadow where the light was very dim and forest whispers stirred and vibrated. A fox glided across his path, switching into a clump of hazel-bushes. A cock grouse, drumming upon a decayed log, arose on thundering wings to dip into a clump of trees for to the left. Farther into the wood the cluck of a wild turkey sounded. Boy heeded none of these things. On and on he strode—his an aimless goal; his one desire, to come up with that something elusive and elusive—something he feared though treasured and could not understand.

Later, he stood in the low-lying wilderness of Elm Swamp. And there, perhaps, his great mother pityingly solved for him the problem of a new unrest. There where day's light hovered faintly like foggy starlight, his soul shook off its brooding, and the old glad fearless light came back to his eyes.

"No, we ain't girl and boy no more," he whispered; and lifting his arms high he laughed.

What he had received from the forest soothed his spirit as the starry snowflakes, falling on his upturned face, soothed his burning flesh.

At mid-day the setter crept back to his old place by the ash-leach and lay down. "A little later Boy came up the path. He stooped down and patted the dog's head, and noting his tangled hair laughed softly.

"Joe, old pup, I thought it was me who had to roam among the briars and burrs, but I see you've been there, too."

And Joe looked up and yawned sleepily, just as if he had been awakened from his forenoon's nap.

Boy ate his dinner in a haste. When he arose he glanced at Gloss. She was standing before the window, and Boy saw her perfect face, crowned by a mass of heavy chestnut hair, cleared against the light of an outer world. Her great eyes were looking into space; she was dreaming. The young man sought the open with aching pulse. The whistle of Hallibut's mill sounded 'tis challenge, and,

squaring his broad shoulders, he laughed. Something new had come to him. Not strength, though strength was of it. Not defiance; though it helped the power to defy. Boy did not attempt to define that new thing; it was enough for him to know that he possessed it.

(To be Continued.)

## Canadian Authors Praised

New York Publishers Anxious to Get Their Works

Vancouver, British Columbia—Professor W. T. Allison, professor of English in the Methodist College in Winnipeg and a well-known writer and lecturer, declared in an interview at Vancouver that "Western Canada is producing more writers to-day than all other parts of the Dominion put together." He said he hoped the day was near when Canadians would give their own novelists practical support by buying their books. He thought the fiction produced by some Canadian writers was equal in literary excellence to any works of fiction being produced in the United States. "The fact that the New York publishers are showing eagerness every year in reaching out for works by Canadian writers is a significant sign of the times," he declared.

## City Council Doings

To put through the license reduction will require some last hustle. Meantime lots of corns will be tramped on. The cure is "Putnam's," the old reliable corn extractor that has been curing corns and warts for years. "Putnam's" never fails, 25c at all dealers.

## Prices Cannot Go Down

Canadian Farmers Will Make Fine Profits This Year

Addressing the Kiwanis in Winnipeg, Robert Magill, secretary of the Canadian Grain exchange, said: "European in the next twelve months must depend upon the North American continent for its wheat, and the only country today with high-grade hard spring wheat is the Dominion. Where is the price of wheat going? Well, it cannot go down much. The world, you know, is short on wheat and very long on paper money and credit. Canadian farmers this year will make fine profits for all the wheat they harvest."

**Not A Blemish**  
Mans the perfect appearance of her complexion. Permanent and temporary skin troubles are effectively concealed. Reduces unnatural color and corrects gray skin. Highly antiseptic. Used with beneficial results in a curative agent for 70 years.

## Pure Drinking Water

Should be Boiled for Fifteen Minutes in Uncovered Kettle

Unless one is absolutely sure of the purity of the drinking water it is a good idea to boil the water.

In order to kill any germs lurking in the water it should be boiled for 15 minutes in an uncovered kettle. The impurities are driven off by the heat and escape through the steam. Air coming in contact with the water oxygenizes it and prevents it from having a flat taste.

Beware of well and spring water that has not been analyzed.

State of Ohio, City of Toledo, Lucas County—

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid; and that said firm will pay the sum of ONE HUNDRED DOLLARS for any case of Catarrh that cannot be cured by the use of HALL'S CATARRH MEDICINE.

FRANK J. CHENEY.

Sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1886.

(Seal) A. W. Gleason, Notary Public. HALL'S CATARRH MEDICINE is taken internally and acts through the Blood on the Mucous Surfaces of the System. Druggists, 75c. Testimonials free. F. J. Cheney & Co., Toledo, Ohio.

## Fish Fry for Jasper Park

A systematic plan for restocking lakes in Jasper Park with trout has been inaugurated by Col. S. Maynard Rogers, Superintendent of the park. During July 18,000 trout fry have been received from the Government hatcheries and placed in lakes Pyramid, Patricia, Annette and Edith. All of these lakes are well suited to fish propagation and are within easy distance from park headquarters.

Queen Victoria was among the first in England to relinquish the franking privilege.

## ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

For Colds, Pain, Rheumatism, Aching Joints, Lumbago, Sciatica, Neuralgia, and for Headache, Neuritis, Toothache, Gout, take Aspirin marked with the name "Bayer" or you are not taking Aspirin at all. Accept only "Bayer" Tablets of Aspirin in an unbroken "Bayer" package which contains complete directions. Then you are getting real Aspirin—the genuine Aspirin prescribed by physicians for over nineteen years. Now made in Canada. Handy tin boxes containing 15 tablets cost but a few cents. Druggists also sell larger "Bayer" packages.

There is only one Aspirin—"Bayer"—You must say "Bayer" Aspirin. In the trade mark (registered in Canada) of Bayer's Manufacture of Mono-acetic acid of Salicylic acid. While it is well known that Aspirin means Bayer and Bayer means Aspirin, the public is being misled by imitations. The Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

## BRITAIN ISSUES A WARNING TO BOLSHEVIKI

TO STOP POLISH ADVANCE

Great Britain and Allies May Be  
Forced to Declare War  
On Russia

London.—According to the Herald Premier Lloyd George, during a conversation with M. Krassin and Kamenef, presented an ultimatum to the Bolshevik representatives demanding an immediate and unconditional cessation of the Russian advance into Poland, even before signing an armistice, or otherwise Great Britain would declare war.

The newspaper declared that the British note sent to Russia is of a threatening character.

The Daily Mail also reports that the note is in the nature of an ultimatum. "It says plainly," asserts the newspaper, "that Poland is being over-run, and it, instead of hastening an armistice, the Bolsheviks armies continue to advance, the situation foreseen in the note of July 20 will have arisen, and Great Britain and her Allies will be obliged to assist in the support of Poland."

The Daily Mail also declares that the Prime minister indulges in some frank talk about the Red advance, to Kamenef and Krassin.

## Scores Sir Eric Geddes

Jellicoe Declares That Latter Made  
Complete Fiasco of the  
Admiralty Plan

London.—Lord Jellicoe's new war book, which discusses the administration of the British admiralty, has created some sensation by its disclosures affecting Sir Eric Geddes as First Lord of the Admiralty.

Lord Jellicoe's book says Sir Eric appointed hordes of civil officials, incurred huge expense, disorganized the admiralty in the mist of the submarine war and then made a complete fiasco of the admiralty's building program, which was his special care. It is pointed out that Sir Eric's achievements as minister of transports has been the exact counterpart of this.

## Wheat Certificates

Winnipeg.—The first payment of a participation certificate issued by the Canada Wheat board has been made. Approximately 900,000 certificates have been issued, it is said, and the first participation is at the rate of 30 cents per bushel. The second payment of at least ten cents per bushel is expected. The first disbursement will amount to \$30,000,000 or \$35,000,000, according to members of the wheat board.

Japan Puts Larger Force in Korea  
Tokio.—Japan will increase her garrison forces in Korea by 4,800 men, owing to the unsettled conditions, it was announced here.

## Faint and Dizzy Spells. Weakness and Shortness of Breath.

You can generally tell when the heart is affected by the faint and dizzy spells, the shortness of breath, palpitation, throbbing, irregular beating, smothering sneezes, weak, sinking all-gone feeling, creeping sensation, etc.

Many men and women become rundown and worn out when otherwise they could be strong and healthy. If they would only pay some attention to the first sign of heart weakness.

No remedy will do so much to make the heart vigorous, strong and vigor, regulate its beat and restore it to a healthy and normal condition as Millard's Heart and Nerve Pills.

Mrs. C. A. S. Drake, Paris, Ont., writes—"I have used on towards the second box of Millard's Heart and Nerve Pills and find they have done me good. I had those fainting, dizzy spells, once in a while, and also weakness and shortness of breath, and would become so choked up at times I could hardly sleep without sitting up in bed. When walking too fast I would have to stop and try to catch my breath. I feel so much better since I have used your pills and know that they have helped me wonderfully as I have improved very much."

Price 50c. a box at all dealers or mailed direct on receipt of price by The T. Millard Co., Limited, Toronto, Ont.

## Release Strike Leader

Winnipeg Labor Men Obtain Freedom of John Farnell

Winnipeg.—John Farnell, one of the Winnipeg strike leaders who was given a prison term of nine months for sedition utterances, is to be released at once. News to this effect was contained in a telegram received by E. Robinson, secretary of the Trades and Labor Council, from Tom Moore, president of the Trades Congress, who stated that he had been officially notified by the under-secretary of state that a wire had been sent to Winnipeg ordering Farnell's release forthwith.

Farnell has been in jail for about six months, so that three months are being lopped off his sentence.

The news comes as the culmination of quiet but effective work of the labor leaders to get Farnell out of jail in view of the poor health of his wife and the baby that was born after the father was imprisoned.

## Propose Stiff Penalties

\$2,000 Fine or Jail for Intemperance  
In Ontario

Toronto.—It is believed that as an outcome of a conference held at the parliament buildings between Police Magistrate George T. Denison, of this city, and Attorney-General W. E. Rancey, that \$2,000 fines for breaches of the Ontario Temperance Act, as well as imprisonment, may become fairly common in the Toronto police court. So far, heavy fines are uncommon.

It is understood that Magistrate Denison was instructed on lines similar to the notices sent out by the attorney-general to the magistrates throughout the province to the effect that prevention, not revenue, was the object of prosecutions for breaches of the Ontario Temperance Act, and suggesting imprisonment as a means to this end.

## Damage from Hessian Fly

Ontario Counties Report Damage to  
Fall Wheat From  
Pest

Toronto.—Serious damage has been done to fall wheat crop by the Hessian fly, in a number of counties in the southwestern section of this province, according to reports received by the Ontario department of agriculture. Reports from Norfolk state that some fields there suffered from 40 to 50 percent of damage from the insect. Barley has headed well, but the straw is short. Oats promise a generous yield with plenty of straw. Spring wheat has not done so well as the other grains mentioned. Owing to continued catchy weather, a good deal of hay is still lying in the fields and as a result there will be considerable poorly-cured clover and timothy.

## With the Gentle Bolsheviki

Wearing of a White Collar Results  
In A Death Warrant

Allenstein, East Prussia.—Threats by the Russian soviet forces to execute instantly any civil or military subjects of the allied powers who pass the frontier, are reported by refugees arriving here from the region to the east being occupied by the Russians. This has caused the inter-armed columns in the district to announce no person will for any reason be permitted to enter the Russian-controlled zone.

The refugees declare that the Bolsheviks are shooting all landowners and property holders and others suspected of having money. The wearing of a white collar of any sort is sufficient evidence for a death warrant. Officials of the inter-armed commission declare that the majority of these reports are supported by circumstances indicating their truth.

## High Wages Hits Farmers

Montreal.—That there is a scarcity of agricultural labor, and further, that such labor as is offered, commands unheard-of wages, was the concern of origin of the many farmers who met at St. Norbert, Berks county, on the occasion of a demonstration of labor saving haying machinery.

## TRANS-ATLANTIC SERVICE BY GIANT DIRIGIBLE

TO CROSS OCEAN IN 50 HOURS

Germans Are Building Airship To  
Equal the Finest Ocean  
Liners

Paris.—The giant new trans-Atlantic air line which German private enterprise is planning to establish will be operated with dirigibles greater than any which have heretofore been flown. They will have 300 cabins, each with two beds, and will be equipped with kitchens, lounging saloons and promenades, the equal of those provided on the finest ocean liners.

It was learned here that the ships will be from the basic designs of the German inventor, Boerner, whose crafts were said to be the models of the R-34, the ship in which British airmen sailed across the Atlantic ocean and back last summer.

The new dirigibles are to be 800 feet long, 80 feet wide and 100 feet high. The envelope will be semi-rigid, and the car will extend almost the entire length of the ship. Motive power will be furnished by 34 gasoline motors, each of either 150 or 200 horsepower, arranged so the ship can be navigated in all directions, without employment of ballast. The arrangements are such that a complete power breakdown or an explosion will be impossible.

The dirigibles will be equipped to make a 4,000 mile non-stop flight at an average speed of 68 miles per hour. The dirigibles will be designed to land in water, and in that element will have a speed of 35 miles. The flight time from Germany to New York will be approximately 50 hours.

Herr Colman, director to the Zeppelin factories, will be the general manager of the new enterprise.

## Man Without a Country

Premier Hughes Will Prevent Return  
Of Mannix to Australia

London.—Messages from Australia quote Premier Hughes as saying that Archbishop Mannix would not be allowed to return to Australia.

In an address at Melbourne, Australia, Premier Hughes severely attacked the archbishop, whom, he declared, was responsible for much of the present sectarian bitterness now prevailing in that country. Mr. Hughes stated that Archbishop Mannix does not represent Australia or the Irish nor any other question, and is the acknowledged Sinn Fein leader in Australia.

## Polish Army Demoralized

Bolshevik Columns Enveloping War-  
saw From the North

Paris.—The Bolshevik forces apparently have scored a great military victory over the Poles, who are reported to have been forced to abandon the Bug River line and possibly will be compelled to relinquish Warsaw.

According to the latest reports to reach Paris, the Polish army, for the time being at least, has gone to pieces and the Bolshevik columns, advancing in echelon in accordance with approved German technical style are enveloping Warsaw simultaneously from the north and east. The Bug River line, Poland's Marne, has gone almost without a fight, compelling the Poles to make a rapid retreat and shorten their front, which some of the military experts believe will be likely to bring the Poles into the Vistula and San Rivers, and involve the abandonment of half of the country to the invaders.

## Freight Increases in U. S.

Washington.—The American travelling and shipping public may expect to begin paying the increased passengers' fares and freight rates authorized by the interstate commission August 26, the railroads have announced.

W. N. U. 1328

## Send Greetings to Britain

United States Sends Message on the  
Sixth Anniversary of  
Entry into War

New York.—Greetings on the sixth anniversary of Great Britain's entry into the war were cable to Field Marshal Earl Haig and Admiral Sir David Beatty by Franklin D'Olier, national commander of the American legion.

"Honor to the statesmen who had the courage to assume responsibility of that decision," reads the message. "Honor to the British Millions who with valor unsurpassed and hearts of oak, executed that decision on Britain's many fronts. When we contemplate what would have been the state of affairs in the world today had not Britain acted as she did, the trials and difficulties of the present hour, however vexatious they may seem now, be, sink into comparative insignificance."

"United States forces have had the privilege of service on land and sea under British high command. The memories of the associations of these great days will never perish. They will perpetuate themselves in our hearts and thus serve to perpetuate the indissoluble friendship of the British and American peoples."

## Coast to Coast by Plane

Progressing With Survey of The  
Cross Canada Air  
Route

Winnipeg.—Surveying of a coast-to-coast, aerial route for commercial aviation, recently undertaken by the Dominion government, is practically completed in certain districts and within a year's time, trans-Canada flying will be inaugurated, according to the statement of Major R. D. Hobbs, inspector of civil aviation, of Ottawa, who arrived in the city.

Major Hobbs said that the development of commercial aviation is dependent on a through route from coast to coast. The most difficult stretch of country between Winnipeg and Sudbury is almost completed. "When we have covered the mountain passes and found adequate landing stages, the surveys will be almost completed. Within a year's time we should have a regular coast to coast passenger service," he declared.

## Murders in New York

Homicide Record of 52 Murders In  
Seven Months Is  
Unparalleled

New York.—Fifty-two murders have been committed in New York city during the seven months since January 1, setting a homicide record unparalleled in many previous years, it was stated at the district attorney's office.

In the six convictions returned in these cases, none have been for murder in the first degree, in 16 of the 52 murders no arrests have been made.

## May Sit in West

Railway Commission Likely to Hold  
Sessions in Both East  
And West

Ottawa.—In addition to the opening hearing by the railway commission of the application of the express companies for an increase of forty percent in rates to be held at Toronto on September 2, the board has decided to have other sittings, both in Eastern and Western Canada. The dates and places where evidence will be taken will be announced later. In connection with the objection taken to the proposal to confine the hearings of the application of the railways for thirty percent increase to be held at sittings in Ottawa, it is probable that the board will give consideration to the west also, and make an announcement at an early date.

## Turks Against Greeks

Constantinople.—Turkish Nationalist forces opened a bitter offensive against the Greeks along a sixty-mile front in Asia Minor on Monday. The battle line extends along the Bagdad railroad westward from Kutahia to Simav.

## LUXURY TAX ADDS MILLIONS TO REVENUE

A 100 PER CENT. INCREASE

Some Tangible Evidence Of What  
New Taxation Scheme Is  
Bringing In

Ottawa.—The effect of Canada's new luxury taxes are somewhat clearly shown in the excise tax figures available. These taxes include luxury, sales, and manufacturers' tax and while it is impossible to give exact figures on the actual amount of luxury tax, it is safe to say that already several millions have been added to the country's income as a result of Sir Henry Drayton's 1920 budget.

Collections from all sources of the inland revenue branch for July amounted to \$9,982,051 as compared with \$4,356,452 for the corresponding month of last year or an increase of \$5,625,599, which is more than one hundred per cent increase.

On the excise tax side the amount collected last month totalled \$6,944,457 as compared with \$699,299 for the same month last year. This is another abnormal increase which reflected the effect of this year's legislation.

## Good Fishing Season

Record for First Six Months Shows  
Increase Over Last  
Year

Ottawa.—Canadian fisheries, both in amount of production and value, made a good record for the first six months of the year ending June 30. Sea fish landed on both coasts amounted to 2,837,424 cwt., valued at \$10,564,146. For the same period last year the catch totalled 2,546,273 cwt., valued at \$9,939,495 or \$1,705,651 less than for the first six months of the present year.

Of the total catch for the six months 1,974,362 cwt., valued at \$7,294,439 were taken from the Atlantic and 862,962 cwt., valued at \$3,269,687 from the Pacific.

## Druggists Warned

Toronto.—Druggists have been warned by the Ontario college of pharmacy, that any druggist convicted of contravention of the Ontario Temperance Act, will lose his certificate, and be prevented from acting as a member, director or shareholder of any incorporated company dealing in drugs or medicines in Ontario.

## NOTHING LIKE ST FOR BRONCHITIS AND WEAK THROAT

Remarkable Cures In the Worst  
Cases Reported Daily

## Cures Without Using Drugs

Doctors now advocate an entirely new method for treating bronchitis and irritable throat. Stomach dosing is no longer necessary.

The most approved treatment consists of a healing vapor resembling the pure air of the Adirondacks. This vapor is a combination of germ-destroying substances, and at the same time is a powerful healing agent. It acts on the bronchial tubes and lungs through a skillfully devised inhaler that can be carried in the vest pocket. Simplicity itself is the keynote of this splendid treatment.

CATARRHOZONE is the name of this wonderful invention that is daily curing chronic cases of weak throat, bronchitis and Catarrh. Heavy breath through the inhaler is laden with soothing, healing substances that destroy all diseased conditions in the bronchial organs, it can't fail to cure because it goes where the trouble really exists, and doesn't attempt to cure ill-effects in the head or throat by means of medicine taken into the stomach. Catarrhozone is a direct breathable scientific cure.

There is no suffering from a grippy cold or any winter ill, that won't find a cure in Catarrhozone, which is employed by physicians, ministers, lawyers, and public men throughout many foreign lands. Large size lasts two months and costs \$1.00 and is guaranteed; small size 50c, sample size 25c, all stockporepore and druggists. Write to the Catarrhozone Co., Kingston, Canada.

# In Agricultural Wealth Of the Prairies Lies Our Future Greatness

Government returns credit Western Canada with 15,771,000 acres of wheat. All the rest of Canada has 1,315,000. The total is 17,186,000 acres. Wheat is bread and bread is the staff of civilized life. It has been so throughout all recorded ages. So far as can be seen it will be so throughout all the ages to come. Being the staff of life wheat is wealth. The value of gold is measured by its power to purchase wheat. The nation that produces the most wheat has the greatest wealth.

Wealth is power, Egypt and Assyria were great and powerful because of their assured production of wheat. It was their wealth of wheat which enabled them to establish the earliest recorded civilizations with an education and culture as finished as that of today. It was their wealth in wheat that enabled them to raise and equip armies and to extend their authority far beyond their original borders. The Egyptians were able to build the pyramids and fringe the Nile valley with temples in stone that are the wonder of the modern world. Because there was always "corn (wheat) in Egypt," the architectural ambitions and achievements of the Assyrians were even greater than those of the Egyptians. But building of brick instead of stone, the record does not remain. Assyria is in Egypt. The tower of Babel was built out of the wealth of wheat on the plains of Mesopotamia, as were the pyramids out of the wheat wealth of the Nile valley. Its wealth of wheat, more than any other factor, is what has enabled the United States to achieve the position as a nation and as a world power that it holds today.

## Government Co-Operation with Farmers

### To Assist in Establishment of Herds Throughout the Province

The Department of Agriculture is carrying out an extensive program of assistance to the farmers, the work of the livestock branch in the past year being particularly efficacious.

Some of the most beneficial work of the branch has been in the purchase and distribution of purebred sires and grade females. The department purchases purebred sires and sells them to farmers who realize the necessity for their use on credit terms. A new record in this work was created in 1919. About fifty percent of the purebred animals sold on credit terms were Shorthorn, twenty-five percent Herefords, fifteen percent Angus and the balance Holstein, Ayrshires and Red Poland.

The grade females were sold to farmers on the same terms, and 1919 saw a greater number handled by the branch than any previous year since the system was adopted. In 1913 a total of 345 grade females were placed, and in 1918, 3014.

To assist in the establishment of sheep herds throughout the province last year, the livestock branch placed 2,491 grade ewes on provincial farms. Much work was also done in the distribution of rams, carloads being brought from Eastern Canada, and importations made from Great Britain.

A valuable work was done by the provincial veterinarian in travelling about the province, assisting the veterinary surgeons and stockmen in various troubles which arose. Much effort was put into laboratory and bacteriological work and a vaccine evolved which was distributed extensively to farmers.

It is the purpose of the Hon. C. M. Hamilton, the new minister of agriculture, to fully extend the work of this branch, and he is convinced that the substantial prosperity of Saskatchewan depends upon a larger variety of assets upon the farms of the province. Mr. Hamilton is himself a practical farmer, having taken up a homestead in Southern Saskatchewan nineteen years ago. He has made several additions to the place in the intervening years and is now farming on an extensive scale.

The blanket of black soil that covers the Canadian prairies from the Red River to the Rocky Mountains is wealth, and civilization, and power because it produces wheat and because its nature is such that it can continue to produce wheat for generations. In that black soil lies the future of Canada. It is the foundation of her national greatness, present and future.

But possibilities are not results, and only results count. Egypt and Assyria which alternately dominated the ancient world, have been under the heel of oppression for centuries. Russia has more square miles of wheat producing black soil than the Canadian West, but her people are poverty stricken and starving. The possibility of wheat production is not civilization. There must be actual production, the result of the application of industry, skill and foresight, exercised under favorable conditions as to social order and governmental authority.

It is by human effort properly applied and directed in causing the earth to produce wheat that wealth and power are created and civilization is built up. The production of wheat is not an end. It is a means to an end. And the end is the development under progressive conditions of the people who produce the wheat, and of their fellow citizens, whose co-operation is necessary in the maintenance of the nation, and therefore to the successful and profitable production of wheat. National progress and success are essential to the progress and success of the citizen whatever may be the line of his life work.

## Disgraced Officer Wins Back Honors

### An Armistice Day Disturbance Wiped Out by Russian Service

By the approval of the King, the London Gazette stated recently, the Military Cross and bar, which were forfeited by Temporary Second-Lieutenant Adam Thompson Stewart, Machine Gun Corps, will now be restored to him in recognition of distinguished services subsequently rendered in the field.

This Scottish officer, who is now demobilized, as a sergeant in the 5th Scottish Rifles (Territorials) went to France early in November, 1914. He was wounded in February, 1915, and later returned to France as sergeant-major in the Machine Gun Corps.

For his bravery in holding a position at Guinchy, in September, 1916, where he saved the lives of his commanding officer and a gunner, he was awarded the military cross. He later gained a commission and a bar to his decoration.

But for taking part in a disturbance on the day the armistice was signed, he was cashiered, losing his decorations and commission.

As a corporal scout in the 45th Royal Fusiliers he went to North Russia and was thrice recommended for the restoration of his commission on account of his gallantry. On the first occasion he reconnoitered a Bolshevik position, and gained important information, enabling the Allied forces to make a successful attack.

With two companions he captured two enemy sentries guarding a strategic point with a machine gun. His first exploit was to penetrate nearly eight miles into Bolshevik territory and blow up a bridge, thus blocking the only route by which the enemy could send reinforcements.

### A Much-Needed Machine

"A lot machine has been invented which, on the deposit of a small coin, will tell a passenger who speed the train is travelling. What would be more interesting is a machine which would tell the passenger what the brakeman said when he announced the next station.

W. N. U. 1328

## Egg-Laying Contest Over the Dominion

Canadian and Provincial Contests to Open Nov. 1, 1920 and Run For 52 Weeks

The Dominion Experimental Farm will conduct a second series of Egg-Laying Contests, beginning Nov. 1st, 1920, to continue for 52 consecutive weeks. The names and locations of the contests will be as follows:

Canadian Contest—Canadian Egg-Laying Contest, Experimental Farm, Ottawa, Ont.

Provincial Contests.—Prince Edward Island Egg-Laying Contest, Experimental Station, Charlottetown, P. E. I.

Nova Scotia Federal Egg-Laying Contest, Experimental Farm, Nappan, N. B.

New Brunswick Egg-Laying Contest, Experimental Farm, Fredericton, N. B.

Quebec Egg-Laying Contest, Experimental Station, Cap Rouge, Que.

Ontario Egg-Laying Contest, Experimental Farm, Ottawa, Ont.

Manitoba Egg-Laying Contest, Experimental Farm, Brandon, Man.

Saskatchewan Egg-Laying Contest, Experimental Farm, Indian Head, Sask.

Alberta Egg-Laying Contest, Experimental Station, Lethbridge, Alta.

British Columbia Egg-Laying Contest, Experimental Farm, Kamloops, B. C.

"Notes: The "Canadian" is open to entries from anywhere, the "Provincial" is confined to entries within the province in which it is situated. Fees: The entry fee for the Canadian Egg-Laying Contest at Ottawa is \$15. The entry fee for all provincial contests is \$5. One-fifth of the entry fee must accompany the application which must be received before Aug. 15. The balance must be paid by Sept. 30. Should the entry not be accepted, the first payment will be refunded, but should the balance of the entry fee not be received by Oct. 10, the application will be cancelled and the first payment forfeited. Failure to forward the pen when instructed automatically forfeits the fee and the application is cancelled. All cheques or money orders must be made payable at par in Ottawa and made out to the "Accountant, for Egg-Laying Contests."

Entries: Entry forms and Rules and regulations will be supplied on application to the Dominion Poultry Husbandman, Central Experimental Farm, Ottawa, or the superintendent of the experimental farm upon which contest you wish to enter is conducted. (See names of contests above.) Entries must be made direct to the contest you wish to enter along with the first payment before August 15th, 1920.

1. Number.—Each entry or pen shall consist of ten birds of a standard variety and each bird must be typical of the breed and free from standard disqualifications.

2. Substitution.—Each contestant will be allowed to keep his pen of ten birds up to strength throughout the contest. In the Canadian Contest two reserves intended as substitutes must accompany the original birds and will be housed with them in the pen. The 10 birds for the original pen must be specified before the contest begins. Further substitution will be allowed as deaths occur. In the provincial contests substitutes will be accepted when deaths occur.

3. Acceptance of entries.—As the accommodation at each contest is limited, the acceptance of the pens will be influenced by:

1.—Whether the entrant breeds the pen or not.

2.—The number of birds of the same strain kept by owner.

3.—The inspector's report of the flock.

4.—The time of application.

4. Inspection.—Pens for which application have been received will be inspected between August 15, and September 30, and those that may be among diseased flocks or in insanitary conditions will be rejected, and those that do not promise to be mature or those that may mature too early may be rejected.

5. Declaration of health.—Each pen must accompany each additional entry of a male or female, must be accompanied by a declaration stating that the birds or bird come from a flock that has not been affected

That the Prince of Wales purchased the Bedington ranch, and is now stocking it up with some of the best breeds of cattle, sheep and horses, with the principal reason in his mind being to benefit the stockmen of Western Canada, is not generally known, if indeed, it is known at all; but this announcement has been made by Professor W. L. Carlyle to a representative of the Calgary Herald. During the conversation Mr. Carlyle stated that the string of thoroughbreds that are now stabled at Victoria park are owned jointly by His Royal Highness and George Lane. The string will be conducted under one stable, though they will be raced as individuals by their respective owners.

"These horses, in fact, all the stock," said the Professor, "stood the journey across very well indeed. Of course there will be no racing done with them until frost season, as we must get them acclimated first. I am going to manage the stable, and will also, in future, have the care of the stock on the Prince's ranch and the Earl of Minto's."

The prince is shipping over here 26 thoroughbreds from the very best families and types, and 75 Shropshire sheep. Most of the cattle are old heifers. It is the prince's idea to bring this high grade of stock to the West with the intention of helping out the stockmen of the West. They have all been raised on the prince's farm in England, and instead of selling them there, where they are not so much needed, he conceived the idea of buying the ranch in Alberta, and giving the Western stockmen the chance to get into good stock. If

they are not sold then they will be bred and raised and be marketed the ordinary way.

The cattle and sheep belonging to the Prince of Wales at present in Scotland. Professor Carlyle had some difficulty about them in England, owing to the foot and mouth disease regulations, and they had, therefore, to be sent to Scotland, and in a short while the herd will be on its way out to Alberta.

Lord Minto's herd consists of 13 Shorthorn and 39 Oxford sheep, and they will be arriving at his lordship's ranch in a short time.

The prince is very fond of his Dartmoor ponies. This animal is the oldest known type of horse in the old country, their forbearers having supposed to have been brought over in the early days of England's history, by the miners of tin in Cornwall, from Spain. The Dartmoor pony is of a size between the Shetland and the ordinary horse, and they will be raised here, and used principally for children's driving ponies. Professor Carlyle expressed the opinion that they would probably grow to be a bigger type than in the old country.

Though the prince is not expected to pay another visit to Canada until next year, his manager and financial secretary, Walter Peacock, C.V.O., is coming to Alberta in September. He will travel first of all through the United States and visit the state fairs at Iowa, and will be met there by Professor Carlyle, who is going there to judge the Percheron stock shown. Mr. Peacock will then come through to Alberta and spend two or three weeks here, studying the conditions in the country.

with chicken-pox or tuberculosis for at least three months previous.

6. Banding.—The birds may be banded by the owner with his own bands before shipment, but will be rebanded with sealed contest bands upon arrival at the contest, and the original bands removed. The contest numbers corresponding to owners number will be supplied him.

7. Delivery.—The birds must be delivered at the contest when notified by the management, express prepaid. This will be from the fifteenth to the end of October. Address the shipping crate plainly with the address of the contestant as given in the announcement, and on each crate put your own address which must be the same as the one on which the application was made.

8. Rejection.—The management reserves the right to refuse any entries, to reject and return to the owner, or destroy birds suffering from contagious or infectious disease, or are in any way unsuitable for the contest, to clip the wings of any bird that may be troublesome, to reject all birds that show impurity of breeding or standard disqualifications, and to return to the owner pens from which eggs have not been received by December 15.

9. Breeding.—The owner will be allowed to send after February 15, a suitable male to mate with his pen, and all eggs from a mated pen from March 1 to May 1, will be shipped. The owner or to any other single address throughout the two months. All eggs collected that are not cracked or broken will be included in these shipments. As the mating of the birds is optional, it will be noted that the owner is not to be charged a proportionate reduction of feed will be made in the pens having a male bird.

10. Price.—Eggs so shipped will be charged for at ten cents an egg and will be shipped, express collect. A bill will accompany each shipment which must be paid and the empty package returned before the next shipment will be forwarded.

11. Feeding and Housing.—The birds while in the contest will receive the best feed and care, and the system of feeding will be mixed grain in litter morning and evening, and dry mash in a hopper before them at all time. Green feed, grit, shell and beefscrap or green bone

will also be supplied. They will be kept in houses having glass and cotton fronts.

12. Eggs Counted.—The contest shall be decided by the total number of marketable eggs laid by each pen. Exceedingly bad shape of eggs, soft-shelled eggs, or eggs weighing less than twenty ounces to the dozen, will not be given official credit.

13. Disposal of Eggs.—All eggs laid during the contest become the property of the Department of Agriculture. Eggs not shipped and breeding eggs will be sold at market prices.

14. Reports.—A report of the trap-net weekly record of each bird and weekly total record of each pen will be sent to the office of each week. Copies of this report along with a monthly summary will be sent to each contestant and to all papers that will publish them.

15. The return of the Birds.—If no notification as to the return of the birds has been received by October 1, 1921, the birds on the completion of the contest will be sent by express collect, to the owner's address from which the shipment was made. Should any of the pens not be laying towards the close of the contest, and not likely to lay before the end, they will be returned earlier so as to make room for birds entering for the next contest.

16. Sale or Transfer.—No recognition of sale or transfer of birds during the contest will be made nor shall any entry be withdrawn during the contest, except for reasons stated above.

17. Record of Performance.—All birds in the contests not otherwise disqualified and whose eggs average 24 ounces to the dozen, that is 52 consecutive weeks lays 150 eggs, will receive certificate of Record of Performance AA, and those that lay 225 eggs will receive certificate of Advanced Record of Performance AA.

18. Responsibility.—While every precaution will be taken, neither the management nor any official of the contest will be held responsible should loss occur.

19. Final Decision.—In all cases, the decision of the management shall be final.

Each of the several tribes of the Congo has its own dialect.

## Local & General

Clint Thompson and Fos. Brown motored to Sylvan Lake, on Saturday last, returning on Monday.

Mrs. T. Harvey and daughter, of Dalemead, are visiting at the home of Mr. and Mrs. J. Lennon.

Mrs. A. McGillivray, of Winnipeg, Man. is visiting at the home of her daughter, Mrs. A. Jessiman.

Mr. Cecil Landymore, of Calgary, is visiting amongst his relatives in the district.

Mrs. A. R. Thomas, who recently sold her house in town has moved to Calgary, where she intends to take up residence.

Miss D. Robinson, of Vancouver, late of Crossfield and Carstairs, is at present on a visit from the coast, looking up old friends and relatives in this district.

Mr. and Mrs. C. P. Stafford, of Gifford, Wash. having motored up to this district were joined by Mr. and Mrs. C. C. Stafford who all motored on to Huguenod, on Wednesday last. Mr. C. P. Stafford is a brother to C. C. and W. R. Stafford and will spend a time with them before returning to Washington.

Mr. R. J. Reid has sold his farm one mile north of town, also a large portion of his stock to Mr. Fletcher, of Calgary, who intends to take up residence along with his family about the beginning of September. Mr. Fletcher was until a short time ago Buildings Inspector to the C. P. R. Co. and at the present time is in the Natural Resources office in Calgary.

For Sale.—One St. McCormick Binder, in fair condition. Will be sold cheap. Everything complete. Wm. Fieldhouse, Crossfield.

## To The Public

Have you ever stopped to think what "Efficiency" means to the business world?

Have you ever studied it out and applied it to your own business, no matter in what line you are engaged?

If a Farmer, have you ever compared the losses sustained from inefficient farm labor at a reasonable wage? The same with your equipment?

Have you, if a Merchant, ever suffered losses from the hands of careless clerks, or unskilled delivery drivers and workmen?

If a Blacksmith, Garage man or any Tradesman, have you sustained losses from inefficient labor?

Those losses all go towards making up your "Overhead Expense."

Do you realize that leaky valves on your tractor, car, stationary engine or any gasoline or kerosene plant, means loss of power in proportion to the loss of compression? It may be 10 per cent or it may be 75 per cent. This increases the cost of your power in exact proportion to your loss of compression, which is charged up against your profit in "Overhead" which comes out of your year's earnings.

Have you built a house, barn, store, shop or garage double the size you require to carry on your business successfully?

Do you rent land, letting it run wild without crop or stock?

Every excessive dollar invested by the business man, either in buildings, "dead stock" or real estate, adds to his expense in upkeep, interest, taxes and insurance. This expense is also charged to "Overhead."

If you are in the mercantile business, after calculating this "Overhead" you must either add it to the cost of goods to your customer, or take it out of your legitimate profit, which represent your salary. In either event it is bad business—not only for yourself—but also for your customer and competitor.

To your own case it will eventually put you out of business by losing your customers from high prices charged or losing your profits.

Your customer would therefore pay for your folly or become prejudiced against a good business man who is obtaining legitimate profits only.

It is also unfair to your competitor by creating a demand by the public that cannot, and should not, be satisfied either at your expense or their own.

Under present conditions "Efficiency" should be the first consideration of every man and woman in the country, and all needless expense and waste eliminated.

Furthermore, if every individual would resolve to give his very best to the people he serves, we should fear far less about strikes and class distinction, and in their stead have a United Empire once again.

May 1913.  
for "EFFICIENCY"

DEPARTMENT OF MILITIA AND DEFENCE

Notice to ex-members of the Canadian Expeditionary Force.

NOTICE is hereby given to all concerned that ex-members of the Canadian Expeditionary Force who are entitled to and who require post-discharge dental treatment must submit their applications to the District Dental Officer at the Headquarters of the District in which they reside on or before 1st September, 1920. Applications for dental treatment received after the 1st of September, 1920, will not be considered.

(Sgd) EUGENE FISET,  
Deputy Minister, Militia and Defence,  
Ottawa, August 3rd, 1920.

Note.—Newspapers will not be paid for the advertisement if they insert it without authority from the Department.  
(H. Q. 3361-1-22).

## Notice to the Public
